

## Fully Managed and Hosted IT Service

### ➤ Software as a Service

The TriSys ASP solution is a fully managed Application Service Provider (ASP) service securely delivering the TriSys recruitment software application through a broadband internet connection.

In addition to the provision of TriSys and all associated components (including SQL Server, Post code, SMS etc.), TriSys ASP also offers Microsoft Office, E-Mail, TriSys Web, unlimited disk space, anti-virus, anti-spam, firewall, backup and expert technical support.

TriSys ASP is available on a fixed monthly subscription of as little as £90 when a years subscription is paid in advance.

### ➤ Highly Functional Recruitment Software

TriSys has been used by the recruitment industry since 1994, and offers a very powerful, flexible and affordable solution to any sized recruitment agency. TriSys has been developed by working with its recruitment industry customers (from blue-chip to single user) to provide the 'best of breed' recruitment software product in the market today.

TriSys offers advanced CV auto-recognition, 2-way e-mail integration, customer relationship management (CRM), instantaneous CV search, job-board integration, SMS, post code radial searching. It supports every business process, form, fields, action and report to fit the needs of any recruitment business.

Our 'standard actions' product integrated with TriSys ASP, delivers powerful functionality within 24 hours of sign-up delivering immediate business benefit to subscribers.

### ➤ Target Customers

TriSys ASP is widely used by start up recruitment agencies or companies with consultants working in different geographical locations. TriSys ASP provides a 'virtual office' technology solution for a flat monthly fee with no minimum contract.
